29 January 1959

Dear Ken:

Your message number 0320 [ ] on 27 January raises several questions that I would appreciate your clearing up for me:

1. How many days vacation did [ ] earn under the 1958 contract and what was the rate of vacation accrual?

2. He was given two weeks pay in lieu of vacation and also has one week vacation which is carried over into the new contract. Does this mean he had earned three weeks vacation?

3. Paragraph a 4 of section 8 states that vacation carried forward may be used for emergency leave only. The advice to Mr. [ ] doesn't make such a stipulation and I am wondering if he will understand this limitation.

4. What specifically is the policy you have formulated pertaining to the vacation that must be taken or that will be paid for?

I am not in any hurry for your reply, but will appreciate your answers when you can conveniently get at it.
